Muhammad Sami-ur-Rehman

UX UI Designer

About Me

I am a mid-level UI/UX designer with one year of professional experience in the field. My expertise lies in conceptualizing and designing engaging software products that are both aesthetically appealing and highly functional. With strong problem-solving abilities and creative skills, I am able to deliver effective solutions that satisfy the needs of both the customer and the end-user.

Professional Summary

- UI/UX Designer with experience using Figma to design modern mobile applications and web interfaces.
- Skilled in creating wireframes, prototypes, and user-friendly layouts.
- Experienced in designing clean, responsive, and visually attractive UI designs.
- Passionate about improving user experience and creating intuitive digital products.
- Motivated to learn new design trends and continuously improve creative and technical skills.

Projects

- Designed a Movie App Dashboard (similar to Netflix) using Figma with a modern UI layout and organized content sections.
- Created poster designs for a clothing brand like Khaadi, focusing on attractive colors and visual hierarchy.
- Designed custom logos and UI icons for different mobile and web interface concepts.
- Developed a Banking App UI design including account dashboard, transaction pages, and clean user-friendly interface.
- Built interactive prototypes and animations in Figma to demonstrate user flow and improve the overall user experience
